A chara,

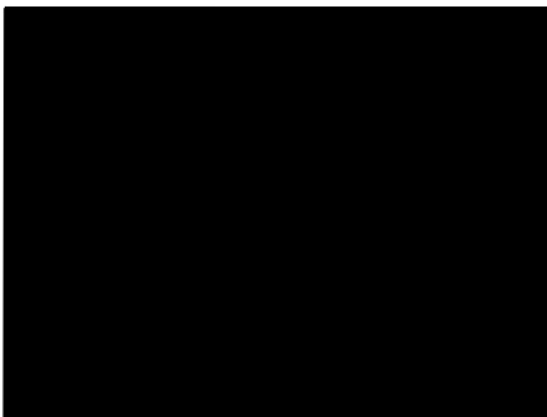

In assessing the lands in the ownership of  for the Residential Zoned Land Tax (RZLT), I feel that there is merit in reviewing the zoning of the parcel of land outlined in the attached map.

Basis for request

The piece of land (shown outlined in black on the attached map) is part of the curtilage of Killaloe Courthouse, a protected structure. It does not belong to the adjacent house and should not be zoned residential. It has an old building on it, which was the former pound and it is secured from access by double high gates.

A feasibility study for the future use and refurbishment of Killaloe Courthouse is currently underway by the Killaloe Municipal District SEO and this piece of ground forms part of the Courthouse lands, registered 

There are proposals for this area to be community space/ outdoor space and this is set out a high level in the Killaloe / Ballina Masterplan.

Folio – CE62767F

Courthouse, Courthouse Road, Killaloe
